

CAN H. TARTANOGLU

Senior Software Engineer at Clovr Labs | Ph. D. candidate in computational neurosciences at the Charité

Berlin, Germany @ canhtart@gmail.com +49 176 64782175 caniko canhtartanoglu

SOFTWARE EXPERIENCE

Indie Game Developer

Self Employed

Nov 2024 – Present Remote

- 1st Game: Kingpin; cardgame; multi-platform, game made for both Web, Steam and Web3
- Technologies used: Rust, WASM, Web-Transport, Bevy, Ethereum-Kaia-Solidity

Senior Software Engineer

Clovr Labs

Aug 2023 – Present Remote

- Blockchain analytics team with focus on Bitcoin (BTC)
- Worked on several analytics backends across our product portfolio
- Used Go, Python, and Rust
- First product: <https://scoremycrypto.com/>

Software engineer and researcher

Haberl Laboratory

Aug 2020 – Aug 2023 Berlin, Germany

- Executive lead on the Synapse DB project. Responsible for infrastructure DevOps, full stack design, and implementation.
- Assisted with automated animal behavior analysis in 3 other Ph. D. projects.
- Mentored, and assisted juniors, and interns.

Open Source project author

Volunteer

May 2018 – Present Oslo, Norway

FOSS projects in Python and Rust, explore my projects on GitHub.

Software Engineer

Mnemonic

May 2020 – Aug 2020 Oslo, Norway

One of two founders of the tooling team responsible for developing backend systems and interfaces for internal and B2B consumption.

LIFE PHILOSOPHY

“Embrace a holistic approach that integrates diverse perspectives and experiences”

ACHIEVEMENTS

FOSS project founder, Oslo, Norway
BiKiPy, a Python package, for analysing animal movement in behaviour experiments, four upcoming citations.

Marathoner
Ran Oslo marathon once, Oslo half-marathon twice, and the Berlin half marathon

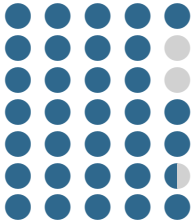

Self-taught
I'm passionate about learning and find I can pick up almost anything that excites me. For instance, I taught myself Python, Rust, and snowboarding.

INTERESTS

Mentoring Engineering Blockchain
Neuroscience Nutrition Ultimate Frisbee
Windsurfing Running Fitness

A DAY OF MY LIFE

BIOSCIENCE EXPERIENCE

Researcher for Academic projects in Neuroscience

On-Site; University of Oslo

📅 March 2015 – April 2020 📍 Oslo, Norway

- The Prydz Laboratory: Worked with and maintained MDCK cells for glycobiology research.
- The Hafting Laboratory: Compute the time a mouse spends in the region of interest, created a new Python package DeepLabCutAnalysis.
- The Morland Laboratory (Institute of Pharmacology): Extraction of kinematic features from experimental video recordings of mice with induced stroke.

Teaching Assistant in Bioscience courses at Bachelor level

On-Site; University of Oslo

📅 March 2016 – Dec 2019 📍 Oslo, Norway

Bachelor courses including physiology, biochemistry, and computational modeling

Laboratory Technician for NoPSC in Melum Group

On-Site; Oslo University Hospital

📅 Sept 2016 – Nov 2017 📍 Oslo, Norway

Worked with genotyping of mice, including isolation of DNA and amplification of target genes.

Intern at the Centre for Integrative Neuroplasticity

On-Site; University of Oslo

📅 Aug 2016 – June 2017 📍 Oslo, Norway

Performed surgeries, partook in meetings, and preliminary work for Master's project

EDUCATION

Ph.D. Candidate

German Center for Neurodegenerative Diseases (DZNE)

📅 Aug 2020 – Present 📍 Berlin, Germany

Thesis title: "SynDB: Federated data platform for high-resolution microscopy data"

Supervisors: Dr. Matthias Haberl, and Dr. Silvia Viana da Silva

Master of Science in Physiology

University of Oslo

📅 July 2017 – Dec 2019 📍 Oslo, Norway

Thesis title: "Markerless 3D tracking and reconstruction of subjects with multiple stereo cameras"

Supervisors: A/Prof. Torkel Hafting, Dr. Alessio Buccino, Malin Benum Roe

Bachelor of Science in molecular biology and biochemistry

University of Oslo

📅 July 2014 – June 2017 📍 Oslo, Norway
